VC322

Market Leading 4K PTZ USB Video Conferencing System
Designed for Huddle Rooms

Distributor/Dealer

Conference Camera with 4K Quality and Large FOV

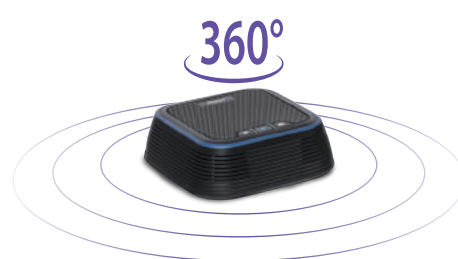

The Perfect Choice for Huddle Rooms

With outstanding video quality in 4K and large 85° field of view, the VC322 easily puts all participants in clear focus. Furthermore, its sharp and compactly designed speakerphone makes sure everyone can hear and be heard. The VC322 is your best choice for your meetings of up to 6 people.

A Real Face to Face Experience with the 4K PTZ Camera

VC322 breaks the expectations of what a USB camera can do. With the VC322 there is no need to tolerate bad video quality anymore. Its 4K video provides superb resolution, color balance, and detail. It delivers ultra-sharp clarity with a lens that allows you to pan, tilt and zoom precisely without losing focus.

Powerful Speakerphone with 360° Pickup

One is enough. No more daisy-chaining speakerphones, the VC322 makes your table tidy again with a powerful speakerphone that removes the necessity of squeezing in with colleagues in order to be heard. Two uni-directional microphones ensure everyone sounds as good as they look and with an audio pickup range of 6m in diameter it completely optimizes your meeting experience.

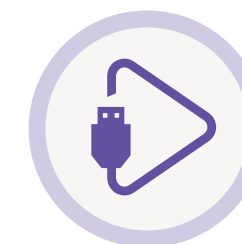

Large Field of View for Meeting Spaces

The VC322's 85° FOV easily puts everyone at the table into frame. No more frustration over camera controls or seating arrangements. Just focus on the meeting and let the camera do all the work.

Just Plug-and-Play

The VC322 provides a simple, easy to use experience. Just plug and play, no more waiting for technicians to work on complicated settings. Plug in the camera and within seconds you're ready to experience video collaboration with any video conferencing application and cloud service you're familiar with.

Uniquely Compact Design

Looking for a camera that fits perfectly into your meeting room? The VC322's compact design makes it a perfectly unnoticeable part of your meeting room.
